Dear Sam

**The Kilns, Llangwm, Pembrokeshire**

I have reviewed the Preliminary Ecology Appraisal produced by Tyler Grange in June 2021 for the above site (reference number TG report No. 13935\_R01\_SC\_HM) and Bat Activity Surveys produced by Arbtech in November 2021 and can confirm that in my opinion (based on a site visit on 21<sup>st</sup> November 2023) there have been no baseline changes. I do not believe that updated ecology and bat surveys are necessary at this time and that the original findings and recommendations of the aforementioned documents should be adhered to.

If you require any further information, do not hesitate to contact me.

Yours sincerely

Siân Williams CEnv MCIEEM
